September 21st 2021

Dear parents and carers

Changes to arrangements if there are positive Covid cases at the school.

With positive Covid cases on the increase in Wrexham schools since the beginning of term, TTP and the LEA have introduced changes to the arrangements Wrexham schools are to follow if there are any positive Covid 19 cases at the school, as detailed below:

Positive cases in Nursery, Reception, Years 1, 2, 3 or 4: Test, Trace and Protect will contact the positive case's parents / carers to ask for contacts outside of the school. All the pupils in the class will be identified as contacts and details will be sent to TTP. The school will inform the class parents and carers by email and will provide a letter advising on what precautions to take. Briefly, the letter will note that the pupils do not need to isolate (unless they start displaying symptoms) and will advise to arrange a PCR test, as a precaution, as close as possible to the day of receiving the letter and then again in 6 days (there will be no need to isolate while waiting for the result if there are no symptoms).

Positive cases in Years 5 and 6: The school will inform parents and carers that there has been a positive case in the class and ask them to keep an eye out for symptoms. TTP will contact the positive case's parents / carers to ask for contacts from outside the school. Differently to the rest of the school, the whole class won't be identified as contacts, but it's possible that TTP will contact the school to ask for details of any individuals that could be contacts within the class (i.e. having sat next to the positive case). If this is the case, we will send TTP the necessary information. Contacts will not need to isolate, but they will be advised to take a PCR test as close as possible to that day and again in 6 days time (there will be no need to isolate while waiting for the result if there are no symptoms)

If you need any further information, please contact the school.

With thanks,

Osian Jones
